IN CASE OF A FIRE PLEASE NOTE THE FOLLOWING

In the unlikely event of a fire, you will immediately be informed by an alarm, if despite all security precautions the evacuation of parts of the hotel becomes necessary.

Stay calm and collected, avoid panic.

Locate the nearest emergency exits / escape routes. You will find a plan on your room door and beside the lift.

Please do not use lifts, but leave the building via the stairs, which are indicated by emergency exit signs.

If you find it impossible to leave your room or your escape route is blocked, stay in your room and inform the concierge by dialling 920 / 921 or the operator on 88. Draw attention to yourself by informing staff members.

If you notice a fire, inform the operator (88) or use one of the fire alarms situated in the stairways.

You will find fire-fighting appliances in the corridors. Please orientate yourself by using the escape plan affixed to your room door.

HOW TO USE FIRE-FIGHTING APPLIANCES

Fire-fighting equipment is located in the corridors. Lift the appliance off the mounting, pull the security pin at the location of the fire, point the end of the hose towards the source of the fire, then press the handle.

SAFETY INSTRUCTIONS

In the interest of your own safety, we would recommend that you always keep room doors closed and deposit valuables in the room safe or in the hotel safe at the reception.
